THE OHIO DEPARTMENT OF MRDD

Your Monthly Update For Individual Information Form (IIF) and Individual Data System (IDS) News!

Individual Data System (IDS) e-Bulletin

NOTICE! IIF Changes For xml Up-Loaders....

Issue 9—March 2009

Beginning Monday, May 31, 2009, in addition to first name, last name and date of birth, you will no longer be able to update Medicaid number via an xml upload. **In order to complete this kind of update, you must go to the ODMRDD Applications Portal and into the IIF Application to make these types of changes.** This will help us *help you* to eliminate overwritten and duplicate records. If you have any questions, please send an e-mail to iif.support@odmrdd.state.oh.us

WHATS NEW WITH IDS?

WE'RE DESIGNING NEW GUARDIAN SCREENS INSIDE IDS THAT PROVIDE EASY ACCESS AND UPDATED CHOICES!

IDS—What's Inside?

The Individual Data System (IDS) will be a centralized location for several person-centric applications. Currently planned for inclusion in the first release of IDS are:

- IIF (the former IIF screens with modifications);
- WL (Waiting List);
- Positive Culture Screens (new screens—formerly Behavior Support);
- Guardian (some of the former GRD screens and some new screens);
- AAI (Acuity Assessment Instrument)
- PASRR Tracking System (PTS)
- ODDP (Ohio Developmental Disability Profile)

Individual Data System (IDS) Update—GUARDIAN

The Individual Data System (IDS) team is currently in the process of building several Guardian screens inside the IDS for County Board use, in lieu of the former Guardian (GRD) application. These new screens will make it easier for you to update guardian information as well as provide you with more guardian “type” choices. The screens will be very similar to the former GRD application, with only a few modifications to make the choices more applicable. And, because you are already logged in to the Individual Data *SYSTEM*, you won't have to open and close applications to get to the screens or search several times to find the person you are looking for!

The new screens will be released later this summer when the entire IDS goes “live”. Stay tuned for more details as we develop these and several other new screens that will make data reporting and analysis much easier for us all!

Tell Us What You Think—YOUR INPUT MATTERS

HAVE IDEAS FOR IDS? CONCERNS? QUESTIONS?

Everyone's input is appreciated as we develop the new IDS. If you have an idea to improve the design, a concern about how IDS works, or just questions about the system in general, please contact the e-mail link below.

WE'RE ALWAYS HAPPY TO HEAR FROM YOU!
